"I feel a new belonging and a sense of being part of my 'manor'; the area is richer, deeper and much more alive than I had given it credit for previously, because of the communities and faiths within it."

What's this course about?

When dashing about day to day, it's easy to miss the many interesting sights close to home. On this five-week 'Photos from the Footpath' course you'll take a closer look at the streetscapes, landmarks, parks and people of Stepney and Whitechapel, using photography as a focus.

Each week there's something new to photograph, such as street life on Mile End Road, friendly animals at Stepney City Farm, mosaics and murals dotted around the neighbourhood, and an architectural mix of Victorian terraces and post-War estates. Each week, we also visit local places of worship, with a chance to chat with our hosts and photograph inside.

There's group tuition and individual guidance on camera techniques and composition, to help you capture the local area in photographs. And along the way you'll hear stories about the places that we visit. In the final session, we work together to create a group photo-book to share the story of our walks around the neighbourhood.

Who is it for?

Given the inter-faith focus of this course, we're keen to bring together a group of Stepney and Whitechapel 'near neighbours' representing a range of beliefs – Christianity, Islam, Buddhism, Hinduism and those of other faiths or no faith.

The course is especially pitched at those who have limited or no experience of digital photography. But you're very welcome if you simply want to learn how to use your digital camera more effectively. If you own a digital camera, please bring that along – but if not, cameras can be provided each week.

When and where?

The course runs on Thursdays, from 10am-1pm, starting on Thursday 28th February and ending on Thursday 28th March 2013.

To get the most out of the course you'll need to attend all five sessions. When you sign up, you'll receive full joining instructions.

"I love the combination of local history and photography. There's so much to see once you really start looking, and I discovered places that I didn't know about."
